

Helping Women Live Smoke Free Social Media Guide

The Helping Women Live Smoke Free Initiative, was developed to support pregnant women and new mothers to smoke less, quit smoking, live smoke-free and avoid second-hand smoke. This guide is to help partners use social media to support and promote tobacco free living with pregnant and postpartum women.

Who is this guide for?

This guide is for all Family Resource Centres and community partners who use Facebook and/or Twitter social media tools or online communication media in a professional capacity.

What is a hashtag?

A hashtag is the “#” symbol.

Use hashtags in all social media channels in order to gain momentum and build a community of support. In addition to the hashtags below, please feel free to use hashtags for your FRC or community group.

Primary Hashtag: #SmokeFreeMomAndMe **Secondary Hashtag:** #HelpingWomenLiveSmokeFree

- ✓ Hashtags (#) allow people to search for tweets that have a common topic.
- ✓ Hashtags are used to categorize important posts, breaking news and relevant topics.
- ✓ Hashtags are all one word or a series of connected words.
- ✓ Hashtags are used on Twitter and Facebook.

What is @?

The @ symbol is used to call out usernames in Tweets. This may also be referred to as a mention. You can mention Helping Women Live Smoke Free partners by using the following

- ✓ Alliance for the Control of Tobacco @actnl
- ✓ Smokers’ Helpline @SmokersHelpNL

When should we start posting?

Start posting and Tweeting any time! This toolkit will be especially valuable during National Non-Smoking Week (annually, third week of January) and World No Tobacco Day (annually, May 31st).

What do we share?

Please feel free to use the social media lines and images developed below. You can copy and paste the text and images from this document, or download them from the SHL website. We encourage you download and add these Social Media Images to your posts, to catch your reader’s eye.

Facebook

Quitting smoking is the best thing you can do to improve your health and give your baby a healthy start! Quitting when you're pregnant means your baby will get more oxygen and nutrients; you have a lower risk of premature birth; and your baby may have few colds, coughs and ear infections. Check out the full list of benefits of quitting for you and your baby at*insert HWLSF link* #SmokeFreeMomandMe

Quitting smoking is one of the best things you can do for your health and the health of your baby.
